📍 Indore

SUMMARY

Motivated Computer Science student with a strong interest in Cybersecurity, Network Security, and Ethical Hacking. Familiar with cybersecurity fundamentals including vulnerability assessment, network security, Linux, OWASP Top 10, and security best practices. Passionate about identifying security risks, learning defensive security techniques, and building a career in cybersecurity.

VIRTUAL EXPERIENCE PROGRAMS

Intern

Tata Group- Cybersecurity Analyst Job Simulation (Forge)

- Analyzed 10+ simulated cybersecurity incidents and identified potential security risks using structured investigation techniques.
- Reviewed and assessed 15+ security alerts and threat indicators to support incident response activities.

Intern

Mastercard-Cybersecurity Job Simulation (Forge)

- Evaluated 20+ phishing email scenarios and identified security vulnerabilities, recommending appropriate mitigation measures.
- Performed IAM-related tasks and security assessments across 10+ user access and authentication scenarios.

Intern

Deloitte Australia-Cybersecurity Job Simulation (Forge)

- Investigated 10+ simulated security incidents, assessed threat indicators, and documented findings to support incident response activities.
- Applied cybersecurity concepts through 5+ incident investigation and threat assessment exercises based on real-world business scenarios.
- Highlight your accomplishments, using numbers if possible.

EDUCATION

Bachelor's in Computer Science

Chameli Devi Institute Of Professional Studies

📅 08/2023 - 05/2026 📍 Indore

High School Diploma

Datahari Public School

📅 06/2022 - 03/2023 📍 Kukshi

STRENGTHS

Soft Skills

Quick Learner, Attention to Detail, Team Collaboration

Soft Skills

Time Management, Analytical Thinking, Communication Skills

SKILLS

Python Linux Kali Linux Git

JIRA Wireshark SQL HTML

CSS JavaScript Burp Suite

Visual Studio Code HTTP/HTTPS

TCP/IP Network Security

Vulnerability Assessment

Incident Response

Phishing Analysis

Identity & Access Management

Nmap

CERTIFICATIONS

Cybersecurity Learning

- Completed 50+ hours of hands-on cybersecurity training covering network security, vulnerability assessment, and incident response.
- Practiced security analysis using Nmap, Wireshark, and Linux across 20+ lab exercises.
